Board of Commissioners' Agendas and Exhibits Available on County Website

St. Clair County Administration has recently implemented NovusAGENDA. NovusAGENDA is an electronic solution designed to assist us in creating, approving and tracking items for upcoming and past Board of Commissioner meetings. The entire process creates an automated Paperless Agenda Solution. The implementation of NovusAGENDA software has provided the opportunity for the Board of Commissioners' Standing Committee and Regular Meeting agendas and all exhibits to be available to the public on the County website. The Board of Commissioner agendas can be found by clicking on www.stclaircounty.org, clicking on Offices and then Board of Commissioners' from the main website. Agendas for meetings held April 1, 2007 or later can be access using NovusAGENDA.

The agendas are available in both html and pdf formats. Clicking on the html link (H) will open the agenda only. In the html version any agenda item with an exhibit will have a direct link to the document(s). Clicking on the pdf version will give you a single document containing the agenda and all exhibits.

One of the major benefits of NovusAGENDA is that we are able to offer the public a more timely and efficient process for obtaining Board of Commissioners' agendas. We will continue to make improvement to the NovusAGENDA program over the coming months.

End
