

## **BICYCLE SAFETY PATCH**

The bicycle safety patch is designed to assist in promoting bicycle safety. We have designed some of the most important lessons of the Bicycle Safety so they can be conducted at home by a parent/guardian and child (ren). We feel this approach can be effective because parent/guardians will be taking an active role in teaching their children bicycle safety and can reinforce these lessons every day.

### **Requirements**

This program is a simple and fun activity that will help you teach your child (ren) some of the most important bicycle safety lessons. The program consists of four simple lessons.

- Lesson 1: Bicycle Inspection
- Lesson 2: Bicycle Helmet Safety
- Lesson 3: Ride Out
- Lesson 4: Rules of the Road

Each lesson should take you and your child (ren) approximately 15-20 minutes to complete and includes:

1. Parent/Guardian Instructions: Directions for completing the lessons.
2. Lesson Background: Information/background statistics which describe the importance of the lesson.
3. Parent/Guardian and Child (ren) Activity: To teach your child (ren) the importance of the lesson and reinforce the content.
4. Patch Requirements: The child (ren) must turn in two activity sheets to receive the patch for this safety area. There are notations on the completion form as to what activity sheets are required.

**Then** ..... Attached you will find the Bicycle Safety Patch form. Each time your child (ren) completes a lesson, please sign and date the form. When all four lessons have been completed return a copy of the completed form to St. Clair County Office of Homeland Security and Emergency Management to receive your patch. You can continue earning different patches.

**Questions** – Contact St. Clair County Office of Homeland Security and Emergency Management at 810.989.6965
