St. Clair County Health Department Suspending COVID-19 Rapid PCR Testing for Travelers

Effective immediately, due to limitations in testing supplies, the St. Clair County Health Department is suspending COVID-19 Rapid PCR testing for Canadian and other travelers. No new appointments or walk-ins will be accommodated. The Health Department will honor previously scheduled appointments.

Rapid PCR testing will be prioritized for symptomatic individuals, congregate settings and high-risk situations.

“We encourage all residents and visitors to plan ahead before crossing the border or traveling” states Dr. Annette Mercatante, Medical Health Officer at the St. Clair County Health Department. “Explore your testing options well before you leave. Individuals can find a list of COVID-19 testing locations on our website www.scchealth.co.”

COVID-19 updates are available on the health department website www.scchealth.co and on social media @scchdmi.
