<td>Recovery (Post-Surge)</td>
</tr>
</tbody>
</table>

In communities like ours with a **Medium** COVID-19 Community Level, the CDC recommends:

- Stay [up to date](#) with COVID-19 vaccines and boosters
- [Get tested](#) if you have symptoms
- Wear a mask if you have symptoms, a positive test, or exposure to someone with COVID-19
- Wear a mask on [public transportation](#)
- Maintain improved ventilation throughout indoor spaces when possible
- Follow CDC recommendations for isolation and quarantine
- If you are immunocompromised or [high risk](#) for severe disease
  - Have a plan for rapid testing if needed (e.g. having home tests or access to testing)
  - Talk to your healthcare provider about whether you are a candidate for treatments like oral antivirals, PrEP, and monoclonal antibodies

At all Community Levels, people can wear a mask based on personal preference, informed by personal level of risk. People with symptoms, a positive test, or exposure to someone with COVID-19 should wear a mask.

As of 7/15/2022

Ongoing response to COVID-19 cycle

Response (Surge)
A surge means rapid response by local and state public health.
- Increased supplies for testing, masking and medications.
- Increased masking, testing and social distancing efforts.

Readiness (Pre-Surge)
A surge is expected due to a new variant, local outbreak, seasonal changes.
- Expect increased illness severity and overwhelmed hospital capacity.
- Educate public regarding new risks.
- Ensure enough supplies of tests, masks and medications.

Recovery (Post-Surge)
Expect to remain in this phase for longer periods as COVID-19 evolves.
- Monitor conditions that may lead to surges, such as a new variant.
- Encourage vaccines to decrease COVID-19 risks.
- Strengthen community support with local stakeholders.
- Empower community members to make best choices for individual situations.

Data in this report is provisional.
Make a COVID-19 Plan

Make a plan for vaccination or learn if you are eligible for boosters.
- Ages 5 and older can get vaccinated.
- Ages 12 and older can get the booster.
- Ages 50 and older, or 12 and older and moderately to severely immunocompromised, can schedule a second booster.
Learn more about vaccines and whether you’re up to date at Michigan.gov/COVIDVaccine.

Keep a supply of well-fitting masks.
Masks are helpful tools to reduce COVID-19 transmission, especially if:
- You are unwell or test positive for COVID-19.
- You have been exposed to someone with COVID-19.
- You are concerned about the risk of transmission in a particular setting. Respect that others may have a risk different than yours.
Learn more about masking at Michigan.gov/MaskUp.

Keep a supply of over-the-counter COVID-19 tests.
Tests are useful for early detection of COVID-19, especially if:
- You have symptoms of or have been exposed to COVID-19.
- You are traveling or will be attending a large or unmasked gathering. Test before and after attending large events.
Over-the-counter tests are available at libraries and schools through Mibackpack, also through federal distribution programs.
Learn more about COVID-19 testing at Michigan.gov/COVIDTest.

Learn if you are eligible for COVID-19 therapeutics.
- Talk to a primary care provider about whether you are eligible for preventative antibodies or for COVID-19 antiviral treatment if you become infected.
Learn more about COVID-19 therapeutics at Michigan.gov/COVIDTherapy.
