

St. Clair County Health Department Possible Employee COVID-19 Case*

The employee has any of the following symptoms (new/different/worse than baseline for any chronic illness):

One of the following

- Cough
- Shortness of breath
- Difficulty breathing
- New loss of smell
- New loss of taste

OR **Two** or more of the following

- Fever (measured or subjective)
- Chills
- Rigors (shaking or exaggerated shivering)
- Muscle aches
- Headache
- Sore throat
- Nausea or vomiting
- Diarrhea
- Fatigue
- Congestion or runny nose

OR

- Temperature 100.4 degrees Fahrenheit or higher

Scenario 1: Individuals identified as close contacts who have recently recovered from COVID-19 will not be required to quarantine if:
They do not currently have symptoms AND;
Were diagnosed with COVID-19 by either (1) a positive RT-PCR or antigen test for SARS-CoV2 within the last 90 days, or
(2) a healthcare provider based on symptoms, and 90 days or less have passed since symptoms began.

Scenario 2: Vaccinated persons with an exposure to someone with suspected or confirmed COVID-19 are not required to quarantine, if they meet ALL of the criteria:
They are fully vaccinated; at least 14 days since receiving the final dose in the vaccine series (2 doses of Moderna; 2 doses of Pfizer; or 1 dose of Janssen/Johnson & Johnson) and
They have not developed any symptoms since their exposure to someone with COVID-19.

* There should be a record of the case having been reported to public health in order to exempt a close contact from quarantine.
