

## ST. CLAIR COUNTY SCHOOL IMMUNIZATION COMPLETENESS & WAIVER DATA

**INTRODUCTION:** This report displays data regarding students with completed immunizations **and** vaccine waivers by school district. A student with completed immunizations has all **required** vaccinations for school entry in Michigan. Students that have a vaccine waiver, incomplete, or pending documentation when the data was pulled will be considered incomplete for the purposes of this report.

This data was obtained from the Michigan Care Improvement Registry (MCIR). Each school within St. Clair County was responsible for reporting immunization and waiver data for all kindergarteners, 7<sup>th</sup> graders, and transfer students (all ages) each school year.

Please note that some recommended vaccinations were not required by the State and this report only measured completeness for required vaccinations.

### PERCENTAGE OF STUDENTS WITH COMPLETED IMMUNIZATIONS<sup>1</sup> BY DISTRICT

Data obtained from the Michigan Care Improvement Registry (MCIR)

\*Values less than 10, other than zero were omitted.

<sup>1</sup>A student with completed immunizations has all required vaccinations for school entry in Michigan based on their age. Student totals and waivers only included kindergarten, 7<sup>th</sup> grade, and transfer students.

Michigan state law mandates each school shall report to the local health department the immunization status of all kindergarten, 7<sup>th</sup> grade students, and students newly enrolled in the school district or intermediate school district. All schools affiliated with the Michigan Department of Education are required to report their immunization status of their students annually regardless if the student attends school in person or virtually.

Proof of required immunizations, lab confirmed immunity, or a valid certified immunization waiver must be provided to the school by the first day of school. Students without required documentation shall be excluded from attending until required documentation is provided. During disease outbreaks, incompletely vaccinated students may be excluded from attending school.

The table below displays:

- The total number of Kindergarten, 7<sup>th</sup> grade, and transfer students
- Number of those students with completed immunizations<sup>1</sup>
- Number of waivers
- Percent with completed immunizations
- Percent with waivers for each school district

<i>District</i>	<i>Total Number of Students</i>	<i>Number of Students with Complete Immunizations</i>	<i>Number of Students with Waivers</i>	<i>% Complete</i>	<i>% Waivers</i>
<i>Yale Public School</i>	318	277	28	87.1%	8.8%
<i>Virtual Learning Academy of St. Clair</i>	100	91	*	91.0%	8.0%
<i>Port Huron Area School District</i>	1260	1149	78	91.2%	6.2%
<i>Memphis Community Schools</i>	148	109	33	73.6%	22.3%
<i>Marysville Public Schools</i>	521	457	49	87.7%	9.4%
<i>Landmark Academy</i>	206	171	23	83.0%	11.2%
<i>East Shore Leadership Academy</i>	37	34	*	91.9%	5.4%
<i>East China School District</i>	611	517	60	84.6%	9.8%
<i>Capac Community School District</i>	159	136	20	85.5%	12.6%
<i>Blue Water Middle College Academy</i>	280	273	*	97.5%	2.5%
<i>Algonac Community School District</i>	245	213	23	86.9%	9.4%
<b><i>Total</i></b>	3885	3427	331	88.2%	8.5%

<sup>1</sup>A student with completed immunizations has all required vaccinations for school entry in Michigan based on their age. Student totals and waivers only included kindergarten, 7<sup>th</sup> grade, and transfer students.

## Vaccines Required for School Entry in Michigan

Whenever children are in group settings, there is a chance for disease to spread. Parents must follow state vaccine laws in order for their children to attend school. These laws are the minimum standard for preventing disease outbreaks in group settings. The best way to protect children from serious diseases is to follow the recommended vaccination schedule at [www.CDC.gov/Vaccines](http://www.CDC.gov/Vaccines). When following the recommended schedule children are fully protected and any school vaccination requirements are met.

	All kindergartners and 4–6-year-old transfer students	All 7th graders and 7–18-year-old transfer students
 Diphtheria, Tetanus, Pertussis (DTP, DTaP, Tdap) <sup>1</sup>	4 doses DTP or DTaP 1 dose must be at or after 4 years of age	4 doses diphtheria and tetanus or 3 doses if 1 <sup>st</sup> dose given on or after 1 year of age 1 dose Tdap at 11 years of age or older upon entry into 7 <sup>th</sup> grade or higher
Polio <sup>1</sup>	4 doses or 3 doses if dose 3 was given on or after 4 years of age	
Measles, Mumps, Rubella (MMR) <sup>1, 2</sup>	2 doses at or after 12 months of age	
Hepatitis B <sup>1, 2</sup>	3 doses	
Meningococcal Conjugate (MenACWY) <sup>1</sup>	None	1 dose at 11 years of age or older upon entry into 7 <sup>th</sup> grade or higher
Varicella (Chickenpox) <sup>1, 2</sup>	2 doses at or after 12 months of age or current lab immunity or history of varicella disease	

<sup>1</sup>Vaccines should be given at certain ages and at certain times (follow [CDC Immunization Schedule](http://www.CDC.gov/ImmunizationSchedule) for the recommended number of doses, correct spacing, and ages); this chart is based on Michigan school immunization requirements. We strongly encourage parents and providers to follow the CDC recommended schedule because school requirements are the minimum for protection. Follow this chart when assessing immunization status for school immunization requirements.<sup>2</sup> If the child has not received these vaccines, documented immunity/waiver is required. During disease outbreaks, incompletely vaccinated children may be excluded from school. Parents and guardians choosing to decline vaccines must obtain a certified non-medical waiver from a local health department. Read more about waivers at [www.michigan.gov/immunize](http://www.michigan.gov/immunize). The Michigan Department of Health and Human Services (MDHHS) does not discriminate against any individual or group on the basis of race, national origin, color, sex, disability, religion, age, height, weight, familial status, partisan considerations, or genetic information. Sex-based discrimination includes, but is not limited to, discrimination based on sexual orientation, gender identity, gender expression, sex characteristics, and pregnancy.
